

# Elk Special Permits

## APPLICATION SUBMISSION PERIOD: APRIL 20 - MIDNIGHT ON MAY 18, 2020

- These hunts are for special permit holders only. See pages 16-17 for instructions on how to apply.
- You may purchase and submit up to six elk permit applications; one permit application per hunt category, for which you qualify, as listed in the following tables.
- Only one elk may be taken per hunter during the hunting season, except for successful Master Hunter special permit applicants.
- Individuals with hunter education deferrals for 2020 may not apply for special permits. For detailed information on the deferral process and hunter education requirements, please visit our website at: [wdfw.wa.gov/hunting/requirements/education/deferral-program](http://wdfw.wa.gov/hunting/requirements/education/deferral-program). You may only hunt with the hunting method in compliance with your tag. See page 46 for definitions of tag abbreviations (e.g., EA, EF, EM, WA, WF, WM).
- Some private timberland owners in this hunt area are limiting access or charging fees for access. If you cannot secure access in advance, do not apply for these hunts.

## Special Hunt Application Required (Category): Quality Elk

**Who May Apply:** Anyone possessing the required license/transport tag may apply. You may only hunt with the hunting method in compliance with your tag. See page 46 for definitions of tag abbreviations (e.g., EA, EF, EM, WA, WF, WM).

**Notes:** Hunters can expect lower than average hunter densities, greater potential for success, or good hunt timing during these hunts.

**Hunt Choices Allowed:** Up to 2 hunt choices may be selected for this category. Use the 4-digit "Hunt Choice" number below when submitting your application.

## Moose Observation Survey

This survey is designed to gather annual information on the moose population from involved citizens like you! WDFW is most interested in reports during **September 1 - November 30**. If you choose to participate, submit a report with the number of hours you were afield every day, whether or not you saw a moose. The reports are quick (~2 minutes) and easy. Your reports will help inform calf:cow ratios, abundance indices, and will guide management decisions in the future.
